Origin	Dak Lak, Dak Nong Province	Lam Dong, Son La Province
Annual Capacity	4,000 - 5,000 tons/year	1,000 - 2,000 tons/year

NATURAL PROCESS

Whole coffee cherries are sun-dried on patios or raised beds and raked regularly to ensure even drying and prevent fermentation defects. Moisture is reduced to 10-12%. This method is suitable for commercial Robusta and high-volume orders.

ANAEROBIC PROCESS

Only 100% ripe red cherries are used. After washing and defect removal, cherries are placed in a sealed oxygen-free environment at controlled temperature, around 24°C. Acid and sugar levels are monitored during fermentation to create distinctive and complex specialty profiles.

FULLY WASHED PROCESS

A four-step process: sorting, pulping, mucilage removal through fermentation, washing and drying. The method requires specialized equipment and clean water resources, delivering clean cup profiles with fewer defects. Ideal for premium green coffee.

HONEY PROCESS

A hybrid between washed and natural methods. After pulping, part of the mucilage is retained during drying, with little or no fermentation. Final moisture reaches 10-12%, producing balanced sweetness and body.

GREEN COFFEE BEANS

Vietnamese Robusta, Arabica and specialty varieties, including Mokka, Typica, Bourbon, Liberica and Excelsa.

Common Packaging: Jute/Burlap bags, PP bags, Jumbo bags, or customized export packaging.

ROASTED COFFEE BEANS

Roasted Robusta and Arabica beans, available under branded, unbranded or OEM private-label formats.

Common Packaging: One-way valve bags, vacuum-sealed bags, tin cans, retail pouches, or OEM private label packaging.

INSTANT COFFEE

Spray-dried and freeze-dried instant coffee; 2-in-1 and 3-in-1 formats; OEM private label available.

Common Packaging: Sachets, stick packs, jars, tins, retail boxes, or OEM private label packaging.

SALTED CHILI

Supply Availability	Year-round supply based on preserved stock plan.
Farming / Sourcing Area	Northern and North-Central Vietnam chili sourcing areas.
Estimated Output	1,000 tons/year.
Packing	Plastic drum, PE/PP bag, carton or customized industrial packing.

DRIED RADISH STRIPS

Supply Availability	Year-round supply based on dried stock plan.
Farming / Sourcing Area	Approved Vietnamese sourcing areas.
Packing	PA bag, carton, PP/PE bag or customized packing.
